Northwind PBM Services (Included Services)

Plan Administration

- Implementation services and timeline
- Prescription benefit design implementation and management services
- Northwind standard formulary administration
- Northwind rebate program
- Maximum allowable cost (MAC) program

Pharmacy Network Management

- Electronic prescription claim processing and payment
- Point-of-sale online messaging
- Pharmacy network administration, contracting, auditing, and credentialing
- Real-time concurrent drug utilization review safety messaging to pharmacy
- Toll-free 24/7/365 pharmacy help desk
- Claims payment detail sent to participating pharmacies

Member Services

- Standard welcome packet and initial ID cards
- Toll-free 24/7/365 customer service center for members, providers, and pharmacists
- Operational (administrative) prior authorizations / overrides
- Consumer portal (member website and mobile application)
- Pharmacist availability 24/7/365 for mail and specialty members

Account Management and Client Tools

- Designated account management team (account executive, account manager, clinical program manager)
- Business financial reviews including clinical recommendations
- Self-service access to the claims processing portal (real-time eligibility, prior-auth management, claims history)
- Self-service access to the standard and ad-hoc reporting portal

Allowances and Ancillary Charges

Implementation Allowances

One-time allowance applied toward the following implementation services, expiring 90 days post go-live: custom programming including file conversions; customization of consumer portal; custom communications including formulary notifications; custom ID cards; customization of standard reports; on-site training; open refill and other file-feed costs from the incumbent vendor; pre- or post-implementation audit allowance.	\$12.00 per member
---	--------------------

Pharmacy Management Fund

Allowance used during the contract period, applied toward: drug-file access fee; file conversions requiring custom programming (ongoing maintenance); prescriber panel or facility configuration; customization of consumer portal; custom communications; customization of standard reports; approved clinical programs; on-site training.	\$3.50 per member per year
---	----------------------------

Additional Administrative Services

Service	Cost
Eligibility Maintenance	
Electronic eligibility maintenance	Included
Claims portal access	4 users: Included \$450 each additional user per month
Manual / hard-copy eligibility maintenance — member and/or physician update	\$6.00 per record
Manual / hard-copy eligibility maintenance — group and/or division update	\$12.00 per record
Reporting and IT Support	
Standard monthly reports	Included
Reporting portal access	4 users: Included \$450 each additional user per month
Custom IT programming (including ad-hoc report development)	\$235 per programming hour
Eligibility and plan benefit support — late fee	\$235 per hour for IT time to meet the original implementation or change date
Batch integration with third-party vendors	Included
Real-time integration with third-party vendors	\$0.12 PMPM
ID Cards and Member Communication	
ID cards	Initial value ID cards included (2 logos, 2 cards per household at no charge). Electronic ID cards available via consumer portal. Fees may apply for additional and replacement cards.

Service	Cost
Custom member communication	Quoted upon request

Pharmacy Fraud, Waste, Abuse Programs	
Standard FWA program (desktop and on-site audit, 100% pass-through of audit recoveries)	\$0.06 per claim
Enhanced FWA program	\$0.18 PMPM
Dynamic refill-too-soon edit	\$0.05 PMPM
Client-requested desk audits	\$1,500 per audit
Client-requested on-site audits	\$2,750 per audit
Other Programs and Services	
Formulary management	Standard formulary included; custom formulary \$55,000 per formulary per year
Comprehensive clinical trend management (quantity limit, step therapy, prior-auth edits)	\$0.62 PMPM
Clinical prior authorization	\$65 each
Clinical prior authorization — physician review	\$95 each
Appeals	\$80 per DMR appeal; \$110 per administrative appeal; \$235 per clinical appeal; \$375 per external appeal
ePrescribing service	\$0.28 per ePrescribing transaction
Drug file access	\$9,500 per year
Network Vaccine Program (per-vaccine claim service fee; vaccine cost and pharmacy administration fee billed separately)	\$3.25 vaccine service fee
Additional Claim Fees	
Direct member reimbursement	\$4.50 per claim
Subrogation claims	\$4.25 per claim
Reprocessing of claims / retroactive claim adjustments	\$9.50 each

Assumptions and Caveats

General Assumptions

- Pricing is based on a minimum of 1,000 lives. If eligible members drop below 1,000 after the first or any subsequent month of the term, materially affecting the ability to achieve financial guarantees, pricing is subject to change.
- Financials are based on Northwind's book of business at the time of this proposal. Northwind reserves the right to revisit the financial guarantees if utilization is materially different than the underlying assumptions.

Traditional Network Notes and Assumptions

- The pharmacy network guarantees specified are the discounts and dispensing fees the Client has agreed to pay; these may be greater or less than actual reimbursement to participating pharmacies, and Northwind retains any difference as part of total compensation.
- Network performance is guaranteed on an individual-component basis (ingredient cost and dispensing fee separately), reported quarterly and reconciled annually, with any shortfall covered dollar-for-dollar and credited within 90 days after year-end.
- Northwind manages the pharmacy network, including which pharmacies are included and all pharmacy-side contract negotiations and terms.
- Retail-90 pricing applies to claims filled with 84+ days' supply; mail pricing assumes an average days' supply of 84 or greater.
- Single-source generics are included in the overall generic effective rate.
- Zero-balance claims are measured at the discounted price, not at 100% discount.
- Network exclusions: OTC, vaccine, compound, 340B, paper (DMR), COB, VA hospital, subrogation, client-contracted pharmacies not at network rates, non-FDA-approved drugs, client-owned pharmacies, and claims with state-determined rates.
- Pricing assumes no more than 5% of claims are filled in MA, HI, AK, and PR.
- One national retail pharmacy chain is excluded from the retail specialty network.

Rebate Notes and Assumptions

- Rebate guarantees are based on use of the Performance exclusionary formulary with the medium edit package.
- Guarantees may be adjusted if specialty volume decreases more than 10% during the term versus prior utilization.
- Specialty guarantees are based on standard specialty drugs as identified on the standard Specialty Drug List.
- Rebate guarantees apply per federal-legend brand drug identified using standard drug-classification indicators and standard policies for FDA-approved prescription products.
- Rebate exclusions: OTC, vaccine/immunization, compound, 340B, member-submitted (DMR), secondary-payer (COB), federal-supply-schedule-eligible, subrogation, 100% member-copay (cash card), non-drug (excluding diabetic test strips), claims older than 180 days, exception-logic claims, repackaged NDC, out-of-network claims, insulin, manufacturer price-reduction/discontinued-rebate products, COVID-related claims, and brand thyroid agents.
- Mail and specialty rebate guarantees are contingent on use of the vendor's direct mail and specialty pharmacy; guarantees may be adjusted if a different vendor is elected.
- Guarantees may be adjusted for non-standard programs that negatively impact rebates, or if utilization is less than 85.0% market-share compliant with preferred formulary products.
- Rebates are guaranteed per channel.

Applied Rebate Offer Assumptions

- Rebates are applied to brand discounts and assume use of the Performance formulary with the medium edit package.
- Specialty guarantees may be adjusted if specialty volume decreases more than 10% during the term versus prior utilization.
- Specialty rebates are applied to specialty brand discounts based on the standard Specialty Drug List.
- Rebates are contingent on use of the vendor's direct mail and specialty pharmacy and may be adjusted if a different vendor is elected.

Changes to the above items may impact the financial guarantees. If the Client elects changes that impact this offer, revised financial guarantees will be negotiated with the Client.
